is a desire to bring an extra Soul
to your home and create a
harmonious blend of Luxury and
simplicity.”*

Laurence du Tilly

laur^once
du tilly
/ The Designer

An art of living stylist, Creator of revitalizing spaces, Designer of custom furniture and an inspired and inspiring Author..., Laurence du Tilly was born in Normandy and raised amidst an eclectic blend of cultures. Her goals are Authenticity and a sharing of Values that reconcile Luxury, Simplicity, Beauty, Color, Emotion, Serenity, and Sustainable Manufacturing.

Drawing inspiration from her own life experience, Laurence created her eponymous “Laurence du Tilly” brand in 2019, offering an extensive range of furniture and interior design accessories that are HER very own signature features: clean, natural, timeless lines; high quality, traceable materials; craftsmanship that prioritizes local production. An adept of “made-to-measure” design, her collections of tables and lamps can be made to order in any of the 200 colors featured in the RAL color chart. Her furniture can also be adapted for outdoor use. Her products are sold through her e-shop but also to architects and high-end furniture outlets.

Laurence du Tilly’s interior design universe is an ode to serenity and harmony, an emotional journey of discovery that successfully combines iconic symbols from the past with a decidedly contemporary twist. She communicates this through her furniture, but also on a daily basis through the spaces she renovates or fits out, and through the Art of Living books that she has published.

THE DESIGNER son concept

In the name of color..

Since 2019, Laurence du Tilly has created a comprehensive collection of metal furniture, including coffee tables, dining tables, bedside tables, lamps, and decorative objects with understated, natural, timeless lines.

Her concept: to embrace color and utilize it in both subtle and assertive ways.

Convinced that color plays a major role, of its impact on the feel of a space and the sense of wellbeing in the home, Laurence offers each of her designs in a palette of around two hundred shades from the RAL color chart for made-to-measure interior and exterior decoration.

The challenge is to find your own color and palette that match your own desires, your own personal story as well as the rest of your furniture, to create a unique interior that reflects your personality.

Choose from one of three available finishes: Fine-Textured Matt, Gloss or Satin.

Laurence can also tailor her furniture's measurements on request to match customers' interior and exterior design specifications.

LOW TABLE *gipsy* 80 & 110

A quest for contrast and modernity

Making metal appear softer through the use of natural shapes, thus accentuating its elegant and refined finish.

The first of her brand's designs for the living room, which represents one of the home's focal points, the /GIPSY/ coffee tables' clean, smooth, and circular lines strike a perfect balance between sobriety and timelessness. They blend seamlessly into all styles of decor.

Make your furniture your own by selecting the color that best matches your interior style from among the 200 shades available in the RAL color chart.

GIPSY 80 Ø80xH30 cm
GIPSY 110 Ø110xH35 cm

LOW TABLE gipsy 45

Favorite piece for daring color!

The GIPSY 45 table can switch role within your home, in the blink of an eye and whenever you wish:

a sofa end-table, an occasional table, a bedside table, or a side table...
positioned near an armchair, in the entrance, in a master or child's bedroom
or in the corner of a room as a source of indirect lighting...

Given its color and proportions, it's easy to find a perfect spot
for this coffee table which will become an elegant, understated
accessory for your home. Like the other GIPSY tables, GYPSY 45
is available in two hundred colors from the RAL color chart.

*Diameter 45 cm
Height 40 cm*

LOW TABLE Bohemian

Each object radiates its own sense of emotion.

Laurence's universe represents a delicate blend of styles and eras. Luxury sits happily alongside everyday objects, in a simple and authentic manner, creating a warm, unique, and contemporary decor.

The longer oval table /BOHEMIAN/ is a continuation of Laurence du Tilly's collection of round tables and forms an elegant, seamless addition to settings and interiors that range from the most classical to the most contemporary.

Height of leg 35cm in powder-coated metal

Weight 55kg

Choose your own color from the RAL color chart

DINING TABLE

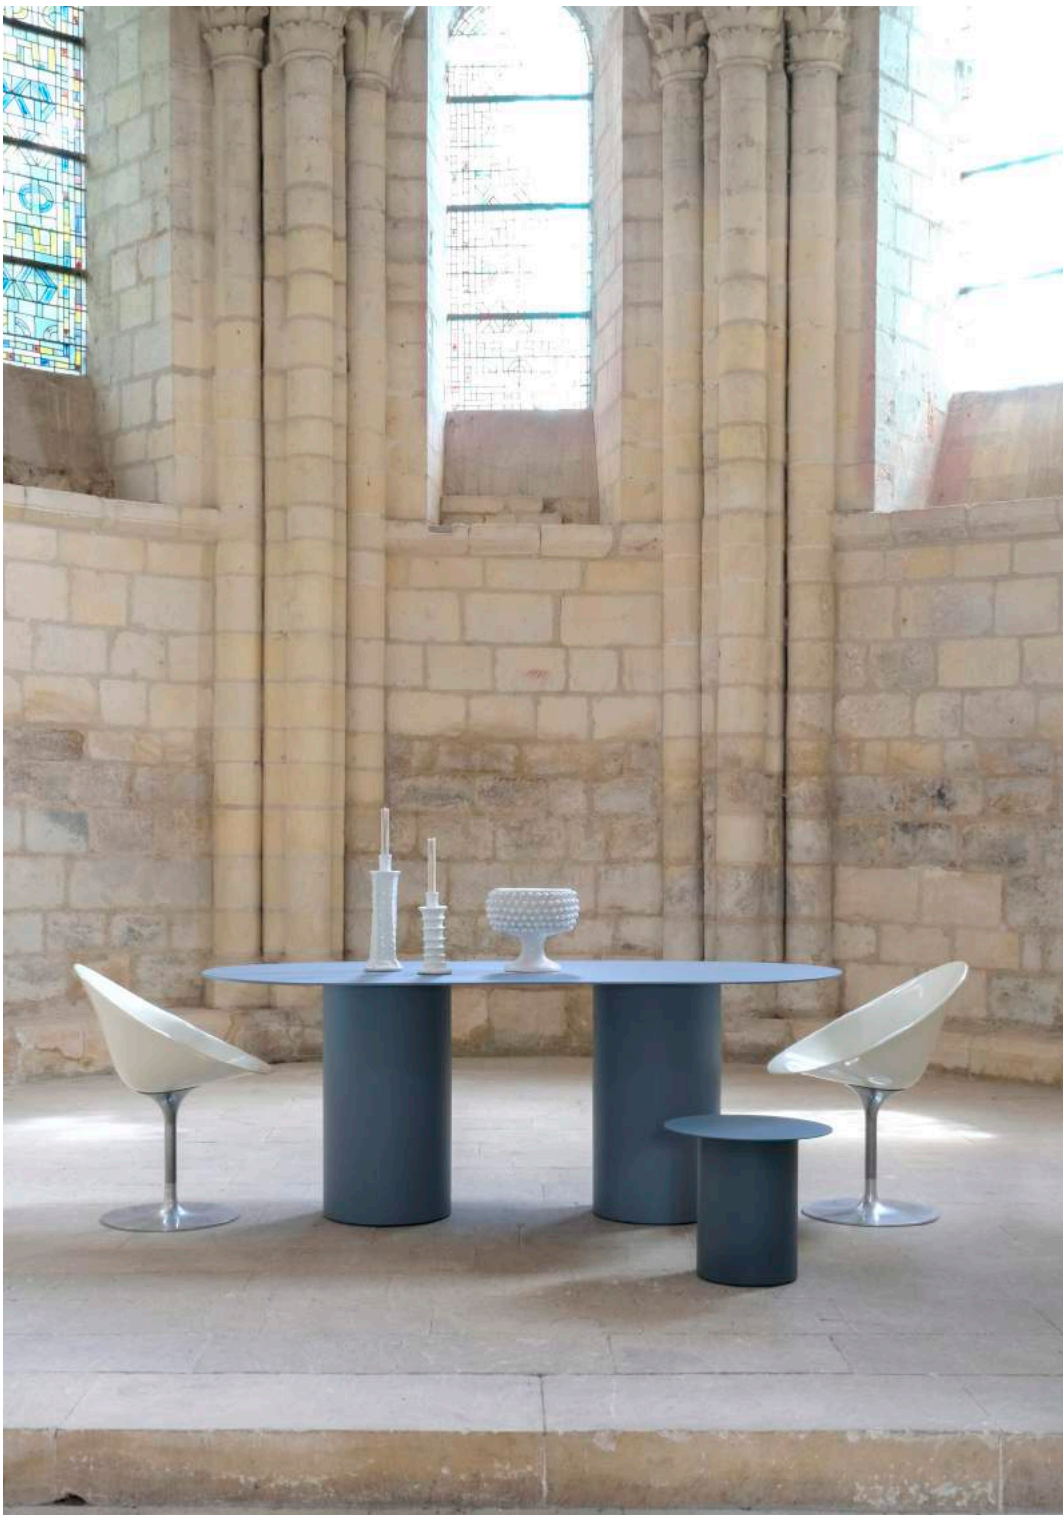

ibiza

Combining interior design with the pleasures of entertaining.

Sharing is one of Laurence du Tilly's core values. Because the dining room is such a vital setting for social gatherings, she designed an initial dining table model, called /IBIZA/, in powder-coated metal.

With its circular shape and central base, this dining table has been designed as an extension of the coffee table range and can seat up to 4-6 people. It is available in two hundred colors from the RAL color chart.

*Only available in a fine-textured matt finish.
Round top 120cm, Height 72cm, - Weight 60kg
Comes with Teflon pads under the central base*

DINING TABLE

boho

Combining interior design and social gatherings.

The home has become a refuge, a vital element of our well-being, and the way we decorate lies at the heart of this trend. Laurence has designed this new /BOHO/ model as an extension of her IBIZA dining table in order to bring together all her friends and family members. Her love of entertaining, sharing and hospitality led her to design a table that can seat up to 12 people, thus combining interior design and the pleasures of inviting friends and family.

Laurence opted for a fine-textured matt finish for the powder-coating of these dining tables. It is less easily damaged and therefore more suitable for regular use.

The finish gives a velvety-smooth appearance that contrasts well with the straight lines of the two table legs.

Hauteur totale : 75cm

Plateau arrondi en aluminium thermolaqué 120 x 240 cm

CONSOLE luna

Elegance with a feminine touch;

The LUNA console table emanates both strength and a sense of femininity. It can blend in discreetly or stand out majestically in an entrance hall, or indeed any other room inside your home.

As its name suggests, the timeless quality of its rounded lines, simultaneously strong but soft, make an allusion to the moon.

Available in three different sizes, the LUNA console can be adapted to fit a variety of interior spaces and is available in a range of colors based on the RAL color chart.

LUNA 110cm Console top 110x37 cm, Height 85 cm

LUNA 130cm - Console top 130x37 cm, Height 85 cm

LUNA 150cm - Console top 150x37 cm, Height 85 cm

COLLECTION primitive

African Art, the magic of contrasts...

Laurence du Tilly spent her childhood in close proximity to African Art, and has always been fascinated by the diversity of this traditional art form.

African art and crafts seek a better understanding of the world by blending what is visible and invisible. This spiritual and sacred element plays an essential role in Laurence's creations, leading her to choose a combination of wood and metal for her /PRIMITIVE/ line of furniture. These two raw materials conjure up images of strength and refinement, accentuating the clean lines favored by Laurence.

The smooth, rounded shape of the cylindrical metal bases are powder-coated (select your color from the RAL range) and contrast with the power of the black-tinted ash, which in turn evokes the intensity of ebony, a hue that is so characteristic of Africa.

To maintain the sleek, streamlined lines that are characteristic of this collection, the tabletops are fashioned in the shape of an "airplane wing."

The woodwork is crafted by hand in a workshop in France.

*Four /PRIMITIVE/ models:
Bohemian and Gipsy 80/110 coffee tables, and IBIZA dining tables*

LAMP **SOEUR**

Inspiration : childhood memories

“A light has two distinct identities: when switched off, it is an object. When lit, it becomes a light sculpture, bathing us in a delicate or intense glow, depending on our mood or the time of day. Light stimulates our senses in the same way as therapy,” explains Laurence du Tilly.

When designing the /SOEUR/ lamp, Laurence delved into her childhood memories, fascinated by the modernity of furniture from the 1970s, which formed a sharp contrast to her family home’s strong traditional feel. The /SOEUR/ lamp comprises a blown opaline globe standing on a hand-crafted base made of steel and powder-coated with a gloss finish to contrast with the more velvety appearance of the globe. Placed on the floor or on top of a piece of furniture, it gently diffuses light while remaining soft to the touch. Each lamp is fitted with a dimmer switch so you can modulate the light to suit the time of day and create your own atmosphere.

The SOEUR lamp series is manufactured in black and white and is now available in four different sizes. Color versions can also be ordered, based on the RAL color chart (delivery times - 8 to 10 weeks).

Size S – Diameter of leg 22cm, globe: 35 cm - H. together with globe 56cm

Size M - Diameter of leg 22cm, globe: 35 cm - H. together with globe 90cm

New products for September 2023 :

Size L – Diameter of leg 22cm, globe: 35 cm - H. together with globe 120cm

Size XL - Diameter of leg 22cm, globe: 35 cm - H. together with globe 150cm

CANDLESTICKS

nonne

Tradition and design. Silence.
A moment suspended in time...

With their clean, modern vertical lines, the /NONNE/ candlesticks are a fitting tribute to these women whose lives revolve around simplicity, authenticity, and spirituality.

As decorative objects, they can be placed in your entrance hall or in a corridor, alongside a sofa, in front of a fireplace, on a flight of stairs or even at the foot of your bathtub.

Standing proud and tall, either alone or grouped together, they come in black or white and in three sizes (80 cm, 90 cm, or 100 cm) to be used with taper or pillar candles. The broad, 20 cm diameter base provides stability and added safety.

Handmade from steel in the traditional manner, they are welded into a single unit without any screws, and then painted using a powder-coating process in a French workshop.

More than just a decorative object, they are charged with emotion, poised to embrace the unique story behind each style of interior design.

Available in three sizes: 80 cm, 90 cm, or 100 cm

PRODUCTS outdoor

Personalization, aesthetics and durability

All Laurence du Tilly's furniture is available in an outdoor version.

Once manufactured, the furniture undergoes an anti-corrosive treatment to enable it to withstand outdoor weathering. It is then painted using a powder-coating process in one of a palette of 150 colors.

BENCH esprit

Multi-purpose object

The most recent of Laurence du Tilly's creations, /ESPRIT/ is a bench that reflects the smooth, understated lines of her universe. It can be placed at the foot of a bed, against a wall in an entrance hall or corridor, or used as a coffee table...

You can request a length to suit your requirements, from between 100 cm and 200 cm. The interior version is available in a palette of two hundred colors from the RAL color chart, and there is also an exterior version.

TABLE LAMPE table Sœur

a communion of light

The Sœur table embodies a luminous communion between two of Laurence du Tilly's iconic designs, the GIPSY 45 sofa end-table and the SOEUR lamp.

As a sofa end-table or bedside table, this design adds a simple and discreet note of originality.

Manufactured in France in powder-coated steel, the Sœur table is available in a palette of two hundred colors from the RAL color chart.

*Overall height 90 cm – height of table top 45 cm
Table top diameter 50 cm*

NOUVEAU

COLUMN church

Pillars of decoration

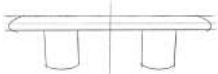

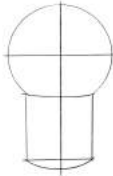

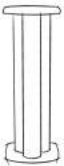

When designing the /CHURCH/ column, Laurence du Tilly drew her inspiration from ecclesiastical architecture. The common feature of all church buildings - whether a cathedral, abbey, or basilica - is their supporting pillars. With its slender curves and square tray top measuring 30x30cm with rounded corners resting on three columns, this model of a stele has been conceived to celebrate the very best of design and art.

The /CHURCH/ column can be easily incorporated into any interior décor and is distinguished by its understated, original features.

Made of powder-coated steel, /CHURCH/ is available in a palette of two hundred colors from the RAL chart and in three alternative heights: 80, 90 and 100 cm.

BEHIND THE SCENE manufacturing

A French and sustainable art of living

All the products created by Laurence du Tilly are manufactured in a workshop in France, apart from her lamps which are produced in Portugal.

Her craftsmen share her values and work exclusively with the finest materials, including wood and steel, to create elegant, authentic, and resilient products.

To customize her furniture, they use a powder-coating technique. Her steel designs are color-coated with powder paint applied by an electrostatic process, which is then cured in a high-temperature oven.

Products intended for outdoor use undergo an additional, anti-corrosion phase involving metallization before being painted, in order to withstand the harshest climates, such as the seaside.

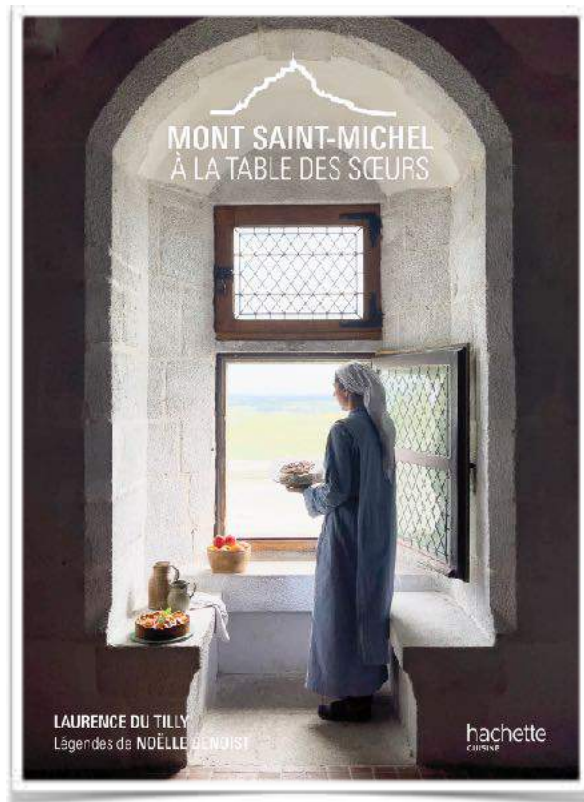

“Through my encounters and my photos, I aim to convey what each person and each place has contributed, in addition to my own spiritual journey :

inner peace, an ability to listen and discuss in an unobtrusive manner and the pursuit of Harmony .

This is my guiding force and is what I seek to share in my daily work.”

Retail price for the French version: €28

Also available in English, Italian and Japanese translations.

Intérieurs sacrés

October 2023 – published by Edition EPA

Retail price for the French version: €45

A stylist and art-of-living author for many years, Laurence du Tilly seeks to share her emotions with us. These two recent books recount her quest for the serenity and sincerity that is inspired by Luxury and Beauty:

The book “A la table des sœurs” tells the story of a meeting of hearts that occurred over the course of a weekend break followed by a year-long series of regular encounters, unveiling the simple but refined dishes prepared by this closed community which embodies, and serves to remind us of, what is Essential.

“Intérieurs sacrés” is the first book to discuss the role of spirituality within interior decoration. Boosted by the Covid outbreak and ensuing lockdown period, a new trend has emerged: the home has become a real source of spiritual renewal. We all seek a sense of protection, comfort, and serenity in our homes. Today’s priority is to make the place where we live a refuge for our soul.
